Our Approach to Preschool

Preschool offered for 2 ½ - 5 years old

Our preschoolers are offered a variety of opportunities to explore their world. Gross motor skills, fine motor skills, and social skills are developed through both structured play and academics.

Although it may seem like fun and games to preschoolers, the curriculum we follow is based on the High/Scope educational approach. This curriculum supports children's learning through active involvement in hands-on experiences with people, objects, and events.

About Us

Our goal is to produce happy, intelligent, well-adjusted children who will be ready for kindergarten and have a love for their Savior.

We believe children are a gift from God. We want children to know all the gifts and abilities God has given them and encourage them to use those gifts to their full potential.
